Create..... for truth, for justice, for balance, reciprocity, harmony, order and righteousness

I understand that I can do nothing alone. I submit to the wisdom of our ancestors who taught me that “I am, because we are, and we are, because I am.”

and

create

are declarations of my assuming responsibility to learn and work as part of a dynamic whole that starts with the Creator and includes my Ancestors, my people, my community, my parents, and my peers.

Only through clear identity, study, and work can my community and family learn to trust and depend on me as I have upon them.

Only through doing my part well can my peers learn to trust and depend upon me.

Only through trust and mutual dependence, can we learn and create in ways and on a scale to turn our world and the world right side up again, to make our Ancestors proud.

Under the watchful guidance of IDA B. Wells and Malcolm X, I commit today and everyday, to **DOING MY BEST WORK.**
